## FINANCIAL DEPARTMENT

### COMPTROLLER'S OFFICE, BANGALORE.

Notification dated 14th May 1947.

*Re.*—Registers to be maintained by Departmental Officers for watching the receipt of bills sent for preaudit.

To

All Departmental Officers.

**No. 451—B. ii.** At present, there is no satisfactory arrangement for watching the disposals of several classes of Bills sent by Departmental Officers for preaudit to the Comptroller's Office or other Audit Offices. Reminders are often received, sometimes months or years after the bills were first presented enquiring about their disposal. The work of replying to such belated enquiries is rendered extremely difficult as the concerned registers in the Audit Office would have ceased to be in current use. After getting at the old registers it has often been found that the bills in question had been returned to the concerned Departments. To obviate all such belated investigations, Government have approved the addition of a New Rule 5 (E) to the Annexure to Mysore Civil Account Code, Volume I, as noted below, directing all departmental officers to maintain and scrutinise a Register of Bills sent for preaudit :—

"It is the primary duty of every officer including countersigning officers, who have to arrange for the payment of Bills, to see that a proper account is maintained of Bills received, and disposed of, as the responsibility of an officer receiving Bills does not cease until he gives a final clearance for them. A suitable Register should, therefore, be maintained of all Bills received and disposed of. As regards Bills sent for preaudit, every office forwarding Bills for preaudit should maintain a Register in the following form for watching the Bills sent for preaudit and their return. In the case of Bills Payable at Bangalore, Registers may be taken or sent to the Pay Section of the Comptroller's Office or other Audit Office concerned once a month for verification. In the case of Bills Payable at the mofussil Treasuries, the Departments should send weekly reminders to the Pay Section of the Audit Office with a view to expedite disposal".

**Register of Bills sent for Pre-audit.**

| Date | Sl. No. | Particulars of the bill. | Token or Non-token. | Date of receipt of cheque or Bill or Advice of issue of cheque. | Cheque No. and date. | Date on which cheque or Bill was cashed, handed over to the parties or returned to sub ordinate officers. | Remarks (Reference to reminders, etc). |
|---|---|---|---|---|---|---|---|
| | | | | | | | |

All Departmental Officers are requested to follow the instructions contained in the above Rule, which will come into force immediately.

8439

Circular dated 17th May 1947.

To all Drawers of Bills in the State.

*Subject.*—The presentation of contingent, supplies and services bills for preaudit before the end of the official year 1946-47.

**No. 318—P. S.** To avoid rush of bills in the last few days of the official year all the Drawing Officers are hereby requested to send the bills to this office for preaudit as early as possible, as soon as each bill gets ready. Keeping them till the end of the month and sending them during the last few days of June 1947, will cause great inconvenience on account of sudden pressure of work in the Audit Office. Much avoidable pressure will also be thrown on the Pay Section adding to the heaviness and congestion in that section.

Bills for contingencies, supplies and services received in this office after the 25th June 1947 cannot ordinarily be expected to be returned audited before 30th June 1947.

8508 V. T. SREENIVASAN, *Comptroller.*

2. The curriculum drawn up in consultation with expert engineers and businessmen, who are on the Advisory Committee of the Institute, is comprehensive and of an essentially practical nature and is designed in accordance with the requirements of the industries. Theory is taught mainly by means of practical illustrations and examples showing the application of fundamental principles in engineering practice. The training imparted in Mechanical and Electrical Engineering is so arranged that in the first and second year general maintenance and repairs are taught to enable the students to join industries if they so desire at the end of the second year. The third year course is intended for specialisation on the production side and the students are taught the design and manufacture of simple tools and machinery required for rural and cottage industries.

In addition to the technical training, a course in Business Administration including estimating and cost accounting, salesmanship, financing of small industries, etc., is also taught. Technical experts, specialists and businessmen are invited from time to time to deliver special lectures on industrial and other subjects.

3. The students are drawn from all parts of the State and in order to provide facilities for boarding and lodging to the students coming from the mofussil, a hostel has been opened for accommodating about 30 students. The Institute is also running a canteen financed from private donations and supplemented by a Government grant, for providing wholesome food to the students during the afternoon intervals, at nominal charges. Poor and deserving students are fed free of charge in the canteen.

4. The Institute is equipped with an up-to-date library and reading room containing a large number of technical books and magazines obtained from England and America and affords opportunities to the students to keep in touch with the latest researches and advances made in the scientific field. In the catalogue section, catalogues of tools, machinery and plant received from manufacturers are provided in the reading room.

5. A Students' Association has been formed with the main object of creating a spirit of brotherhood and diffusing technical knowledge. A co-operative society has also been organised for supplying stationery articles required by the students at cheap rates. Facilities have been provided for indoor and outdoor games, scouting, orchestra, and for the development of other extra curricular activities of students.

6. There are two terms in a year, the first term beginning from the first working day in July and ending with 23rd December, and the second term beginning with the 2nd January and ending with the last working day in June. The hours of work will be from 7-30 A.M. to 11-30 A.M. and 2 P.M. to 5 P.M.

7. The scale of fees for training will be:—

| | | |
|---|---|---|

| 2. Deposit fee | ... | Rs. 10. |
| 3. Tuition fee | ... | Rs. 25 per term for all courses except Radio Technology, Radio Mechanics and Motion Picture Technique. Rupees 50 per term for Radio Technology, Radio Mechanics and Motion Picture Technique courses. |
| 4. Sports fee | ... | Rs. 4 per year. |
| 5. Association fee | .. | Rs. 4 do |

NOTE.—Non-Mysoreans should pay double the tuition fee.

8. Government have sanctioned the award of 16 merit scholarships, 64 backward community scholarships, 3 depressed class scholarships, and 10 printing scholarships of Rs. 10 each per mensem, 3 military scholarships of Rs. 8 each per mensem and 5 military freeships. A number of special scholarships are also awarded by District Boards and Municipal Councils to students coming from the respective areas. Freeships and half-freeships are also granted to deserving students.

Students who have passed out of the Institute in previous years have been able to secure employment on lucrative salaries ranging from Rs. 50 to Rs. 200 per mensem in the various departments both within and outside the State.

9. Candidates must be prepared to interview the Selection Committee at their own cost. The dates of interview will be notified in the *Gazette* and local newspapers.

10. The names of selected candidates will be announced on the Institute Notice Board by about the 15th July 1947 and they are required to pay the prescribed fee on admission. Fees once paid will not be refunded under any circumstances
